

Why do you need a POV?

SOCRadar is a cloud-based security platform so without any hassle by running a **proof-of-value (POV) exercise**, you can better-calculate tangible forecasts about monetary benefits.

POV offers full free trial version of SOCRadar's 3 suites:

ThreatFusion

Cyber Threat Intelligence

RiskPrime

Digital Risk Protection

AttackMapper

Attack Surface Management

We are ready to assist you through the POV process.

It's highly recommended to test the platform in touch with our team to define and test success criteria specific to your security environment and needs.

As you prepare for your SOCRadar POV, our team can help you select success criteria that fit your individual needs, and recommend use cases to validate the pre-defined success criteria.

Take Advantage of Web GUI

SOCRadar Platform gives you a powerful, streamlined web interface that allows you to see your digital footprint including IP addresses/blocks, DNS records, Whois records, websites, social accounts, network products and web services.

You can also export executive-level reports regarding various cyber risks from SSL certificates to fraudulent domains produced by the platform.

Immediate Threat Visibility

Completing a POV provides immediate visibility, in addition to uncovering the long-term value of SOCRadar.

As soon as you subscribe to SOCRadar Platform, you'll be able to view your assets on the dashboard and start to get alerts that make you predict future threats and take necessary precautions.

POV success statistics

In **14-day trial period**, most of the SOCRadar subscribers started seeing the value.

Percentage of SOCRadar customers that have discovered unknown assets during POV

Percentage of SOCRadar customers that have become aware of unknown data exposure during POV

UNKNOWN SOCRadar customers take action before unknown threats become known losses.

Start your free trial now!

For more information on setting up a free POV with SOCRadar, contact the SOCRadar Sales Team today.
