SOCRadar delivers intelligent digital risk protection platform against sophisticated cyber attacks for organizations of any size. Its portfolio of digital assets and perimeter monitoring platforms hardened with targeted threat intelligence – all automated and supported by a global team of qualified intelligence analysts – provides unparalleled visibility, management, and protection of digital risks. Prioritized, up-to-date, and relevant cyber threat insights empower customers to take action starting from the reconnaissance stage of the cyberattack life cycle.

Vulnerability Intelligence Incident Summary

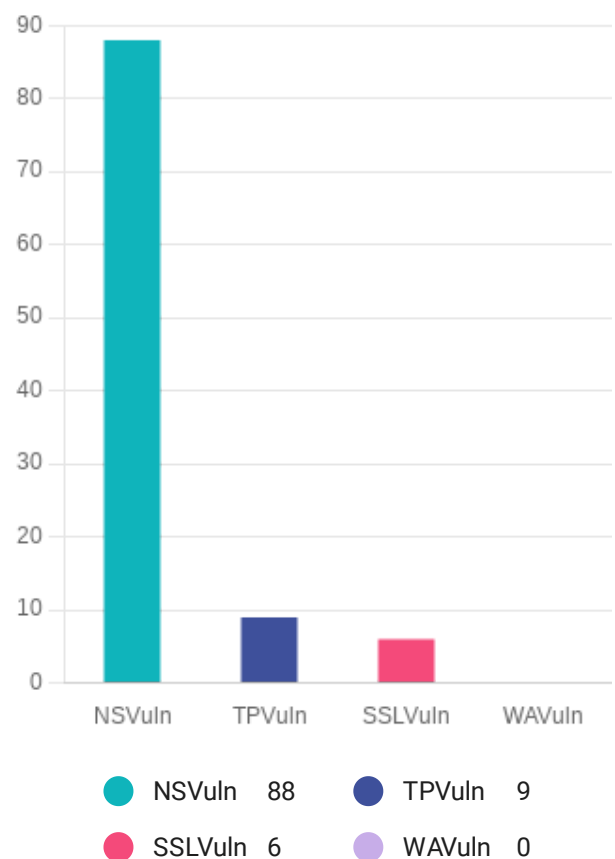

The Vulnerability Report has been prepared for GreenAnimalsBank between 2020/10/19 - 2021/10/19 by SOCRadar Attack Surface Management. This report is a summary of company-specific vulnerability alarms and the cyber world vulnerability events sent by SOCRadar. The data used for this analysis has been collected by scanning a wide variety of sources. With this report, you can get vulnerability intelligence into your organization's attack surface to better predict and defend against cyber-attacks.

PRODUCT TYPE / SEVERITY	High	Medium	Low	Info	Total
Network System Vulnerability	26	62	0	0	88
Third-Party Product Vulnerability	9	0	0	0	9
SSL Certificate(s) Vulnerability	3	3	0	0	6
Web Application Vulnerability	0	0	0	0	0
Total	38	65	0	0	103

Power of automation

Skyrocket security team efficiency by reducing mundane tasks.

360° visibility

Gain in-depth visibility into your external-facing digital assets.

Precise API integration

Smooth integration with existing security stack and SIEM solutions.

Immediate start

Hitting the ground in hours, discovering, monitoring and alerting without requiring any input.

Optimized costs

Choose from the discovered assets only you want to monitor to reconcile license costs with real needs.

CTIA support

Ready to work with clients to identify and remediate threats, helping them build in-house skills and expertise.

Trusted by world's leading organizations
